

TUI Benelux 's vision

As a leading leisure travel company in the Netherlands, TUI Benelux, of which TUI fly is part, feels jointly-responsible for the future of our holiday destinations. For that reason, TUI Benelux has a proactive strategy and policy on sustainable tourism and corporate social responsibility. TUI Benelux recognises that the environment, communities and cultures within which we operate are vital to the success of our business. Responsible leadership is one of the company's core values and underlines our commitment to sustainable development and to making a positive impact on society. It is our vision to make travel experiences special by providing holidays that cause minimal environmental impact, respect the culture and people of destinations and offer real economic benefit to local communities.

Environmental Policy

TUI fly's Senior Management is committed to continuously work towards sustainable development. TUI fly not only complies with all applicable national and international environmental laws, regulations, and company standards, but aims to go beyond that. We strive to conduct our business in an environmentally responsible manner that protects our customers, our employees, and the Earth that we all share. We strive to minimize pollution and mitigate environmental impacts caused by our operations where possible and report undesired situations. We share our results and best practices in order to learn from our experiences and to improve our environmental performance.

Focus Areas

Waste

We want to minimize the creation of waste in the air and on the ground, ensure the proper handling and disposal of all wastes, while pursuing opportunities to prevent pollution, increase recycling and reuse of waste materials.

Sustainable Aviation Fuels

We will be actively involved in the exploration of sustainable aviation fuels.

CO₂ Emissions

We strive to reduce carbon emissions and other harmful gasses from our aircraft and our offices.

Responsible Products

We strive to improve on the use of responsible products and environmentally friendly materials on board and on the ground.
